Complete Project Description:

The Fr. Ray Day Care Center was opened (in 2008) with the aim of providing a pre-school education for up to 100 toddlers and young children who are currently living in the poorest slum areas of Pattaya. The Fr. Ray Day Care Center is opened five days a week from 7.00am until 6.00pm, and the children receive a pre-school education, three meals a day, 2 uniforms and medical attention.

The outdoor recreation playground area of some 110 sq. metres, associated with the Center, will soon be ready for use. The aim of this playground project is to provide an appropriate and safe playing facility for our children. It is our belief that the use of this equipment will enable the physical and mental skills of our children to be developed in a healthy manner. They will also learn many traits such as sharing and looking after their equipment while they fully enjoy the playground facilities and develop their minds and bodies.

We feel that the provision of this playground equipment and toys will greatly enhance the lives of our children and improve the overall service to our children's requirements and needs.
